Corporate Social Responsibility

Maileg is a Danish design company which makes unique quality products. The products are mainly toys and decoration articles - all created with an outspoken intrinsic design value. The intention is to spread joy and inspire children to imaginative play. The products are original and with an aesthetic design which prolong the life time of each product. We value the fact that items are being passed on from generation to generation – that is how Maileg defines sustainability.

We enjoy a close cooperation with our suppliers and value the long-term co-operations that have been build up through years.

The suppliers are all visited on a regularly basis and our Quality Assurance Team is in close contact with all suppliers and secures all aspects from final inspection to internal audits at the manufacturing locations.

Every day we seek to improve and optimize in order to secure the very best conditions for our suppliers.

We follow the Ten Principles of the UN Global Compact as guidelines, which relates to; Human Rights, Labour, Environment and Anti-Corruption. The quality assessments and testing are done in co-operations with certified third-party laboratories.

Thank you for your interest in Maileg.

ALL MAILEG TOYS ARE IN COMPLIANCE WITH

- ✓ **EU requirements**
TSD (Toy Safety Directive 2009/49/EF) and the harmonised standard EN-71.
- ✓ **US requirements**
CPSIA (Children Product Safety Improvement Act) and the harmonised standard ASTM-F963
- ✓ **REACH Directive**
(EC 1907/2006), which is an evaluation, authorisation and restriction of chemical substances used for the products (all of our products are produced without toxic substances)
- ✓ **The GPSD**
(General Product Safety Directive)
